

## Scrum Report: (Week 5)

What have I worked on?

- Distribute tasks for checkpoint A and deliverable 2.
- Started to look at other datasets that could be of use to us.

What will I be working on next?

- Air Quality data from all apis. 5 years data.
- Improve census information.
- Look at other datasets that may be of use.
  - Specifically looking into more health data, bluebike data, and mbta data
- Work towards completing checkpoint A and deliverable 2 for submission.

Have I run into any issues? Do I need help?

- We brought this up in the presentation, we were struggling to find variation of air quality data by zip code. This has been clarified

Team Lead: Have I talked to the client recently? When are we meeting with them next?

- I have discussed with our TPM recently about the challenges we have had. I will probably reach out to her next week.
