

11/29

What have I worked on?

- Dividing the presentation and tasks for deliverable 3
- Looked at the viability of open spaces data against air quality.

What will I be working on next?

- Refining/Finding more relevant datasets related to green spaces and zoning in Boston
- Finding other proxies for the extension project
- Having a rough draft of the presentation by Sunday/Monday

Have I run into any issues? Do I need help?

- The datasets for our extension project proxies (green spaces and zoning) are hard to find so we are reaching out to Taylor to see if he can offer any advice or help

Team Lead: Have I talked to the client recently? When are we meeting with them next?

- No but we are planning to talk to the Program Lead Taylor Thursday Morning
- Talked to the professor during office hours regarding final expectations regarding changes made to the scope of our project and extension.
